Dear Mr. Clark,

I am writing to let you know that your March 6th performance of *Great Scot, It's Andrew Carnegie* was very well received at the North Kingstown Free Library. Your command of the material was impressive, your performance theater quality. You managed to take a tremendous amount of historical information and weave it into an entertaining story. The audience was captivated the entire time that Andrew Carnegie visited with us. What a great way to learn about the past!

Several people in the audience asked me when we would be having you back to portray another character. I know that some had come to see this performance after having seen you perform in Jamestown a few weeks earlier and some were going to make it a point to see you in an upcoming performance at the East Greenwich Library. You have quite a following!

Thank you for sharing your wonderful talent with us. I will definitely be booking another show in the future.

Best Regards,

Elizabeth Donovan
